## Do you want 1170 planes\* roaring overhead every day?

The expansion of Melbourne Airport will increase aircraft noise, 24 hours a day, harming the health of residents, children and workers, leading to hypertension, cardio vascular disease, insomnia, anxiety and depression.

Aircraft noise is proven to harm children's reading comprehension, problem solving, listening, speech perception, attention and memory. And more so for children with language or memory disorders and for those who do not speak English at home.

\* Landings and departures in 2046 predicted by Melbourne Airport.

**Vote for candidates who oppose more runways**

"Dear (MP name),  
As a parent and resident I am worried about the increase in harmful noise impacts we will suffer from further runway development at Melbourne Airport. Please ease the burden on your constituents, protect our health, and oppose more runways.  
Sincerely,  
(Your name)"

# It's a climate emergency!

## Stop Tulla flight emissions booming

Right when urgent and massive emissions cuts are needed, a 3rd runway will enable an increase in flight emissions at Melbourne Airport of over 80%, adding 16 million tonnes CO2-e a year by 2046. That's more than from AGL Loy Yang, Australia's dirtiest power station. It will undermine Victoria reaching emissions reductions of 50% by 2030 and the Australia 43% by 2030 target.
